To create the environs for the preservation of the profound wisdom traditions of the Himalayan world, to promote and facilitate the study and practice of Buddhism, and uphold and advance the unique indigenous cultural and social, arts, and linguistic heritages.
BLESSINGS FROM THE LINEAGE GURUS

“I firmly believe that all such contributions provided for this good cause would bring fruitful results just as eye-medicine helps the eyes”

-H.H. The Kyabgon Gongma Trichen Dorje Chang

To All Who Possess an Abundance of SupremeIntentions:

SakyatChaters Association of New York and New Jersey, established by a group of Sakyas devoted, was officially registered in 2015. Since then, the Association, as a recognized and legally registered Association, has grown to flourish with increasing membership in time.

The main aim of the Association is to facilitate and conduct teaching sessions, spiritual ceremonies, and other spiritual and secular activities, and also to provide religious and cultural services in general, and to ensure the preservation and promotion of Tibetan and Himalayan culture in particular. In addition, the Association aims to provide medical services to the needy community.

To carry out the aforementioned activities, and to sustain the Association for the long term, the acquisition of an institutional space became inevitable for the time. This has now led to the establishment of the SakyatChaters Community Hall Acquisition Committee to realize this aim.

With the utmost progress has been made to realize this objective for the project currently stalled contingent on realization of sufficient funds.

Therefore, I would like to request all generous individuals and groups who have faith in healthcare, love devotion to and trust in Bhutanese culture and religious traditions, to kindly make contributions with vast implications and supreme intentions.

I firmly believe that all such contributions provided for this good cause would bring fruitful results just as eye-medicine helps the eyes.

Ultimately, I dedicate all these accumulated merits to most lofty and all sentient beings to the stage of enlightenment.
